HICKORY STRIKING TOOL HANDLES

NO. 1100 - BENT SINGLE BIT AXE

Lengths: 30" to 36" - For 3 to 5 lbs. Axes

NO. 1300 - BOY'S SINGLE BIT AXE

Lengths: 24" to 28" - For 2 1/4 lb. Axes

NO. 2100 - SLEDGE HAMMER

Lengths: 24" to 36" - For 6 to 16 lb. Hammers

NO. 2300 - NAPPING HAMMER

Lengths: 30" to 36" - For 3 to 6 lbs. Hammers

NO. 3100 - PICK & MATTOCK - NO. 6 EYE

Length: 36" - For 5 to 8 lb. Picks and Mattocks

NO. 3200 - CARPENTER'S ADZE

Length: 34" - For Regular Carpenter's Adze

NO. 3700 - BENT GRUB HOE - NO. 8 EYE

Lengths: 36" to 42" - For 3 1/2 to 5 1/2 lb. Hoes

NO. 3800 - BENT GRUB HOE - NO. 9 EYE

Lengths: 36" to 42" - For 3 lb. Hoes

No. 4100 - COAL MINER'S PICK - OHIO

STRAIGHT GRIP - Length: 34" - Eye 3" x 3/4" - For 2 1/2 lb. Picks

NO. 5100 - POST MAUL - OVAL EYE

Lengths: 32" to 36" - For Cast Iron Mauls

NO. 5336 - WOODCHOPPER'S MAUL - OVAL EYE

Lengths: 36" - For 6 to 8 lb. Mauls

NO. 1500 - DOUBLE BIT AXE

Lengths: 30" to 36" - For 3 to 5 lb. Axes

NO. 1600 - CRUISER'S OR CEDAR D.B. AXE

Length: 28" - For 2 1/2 lb. Axes

NO. 1200 - STRAIGHT SINGLE BIT AXE

Lengths: 28" to 36" - For 3 to 5 lb. Axes

NO. 1200 - MINER'S SINGLE BIT AXE

Lengths: 18" to 26" - For 3 to 5 lb. Axes

NO. 2200 - STRIKING HAMMER

Lengths: 30" to 36" - For 6 and 8 lb. Hammers

NO. 3300 - RAILROAD ADZE

Length: 34" - For A.R.E.A. Standard Adze

NO. 3900 - GARDEN MATTOCK - NO. 7 EYE

Length: 36" - For 3 lb. Garden Mattock

NO. 3500 - STRAIGHT GRUB HOE - NO. 8 EYE

Lengths: 36" to 42" - For 3 1/2 to 5 lb. Hoes

NO. 3600 - STRAIGHT GRUB HOE - NO. 9 EYE

Lengths: 36" to 42" - For 3 lb. Hoes

NO. 4300 - COAL MINER'S PICK - SIZE 3-

W. VA. KNOB GRIP - Length: 34" - Eye 3" x 3/4" - For 3 lb. Picks

NO. 5200 - WOODCHOPPER'S MAUL - AXE

EYE - Lengths: 32" to 36" - For D.B. Eye Types

NO. 5636 - WOODCHOPPER'S MAUL - AXE

EYE - SINGLE BIT - Lengths: 36" - For 6 to 8 lb. Mauls

NO. 7100 - NAIL OR CLAW HAMMER
Lengths: 12" to 18" - For 7 oz. to 28 oz. Hammers

NO. X7100 - OCTAGON GRIP NAIL OR CLAW HAMMER - Same Specifications as No. 7100

NO. 7500 - RIVETING HAMMER
Lengths: 11" to 16" - For 4 oz. to 12 oz. Hammers

NO. 7600 - BRICKLAYER'S HAMMER
Lengths: 12" and 14" - For All Brick Hammers and Scutches

NO. 8300 - MALLET
Lengths: 12" to 14" - For Most Regular Rubber/Metal

NO. 9100 - HALF OR SHINGLING HATCHET
Lengths: 12" to 14" - For All Regular Hatchets

NO. 9300 - LATHING HATCHET
Lengths: 12" to 14" - For All Lathing Hatchets

NO. 10100 - SCOUT AXE
Lengths: 12" to 16" - For Boy Scout Axes

NO. 10200 - HOUSE AXE
Lengths: 16" to 19" - For 2 1/4 lb. Axes

Note - Not all available items are shown. Contact your sales representative or e-mail Tennessee Hickory Handles for additional items.

NO. 7200 - MACHINIST'S BALL PEIN HAMMER
Lengths: 12" to 18" - For 2 oz. to 48 oz. Hammers

NO. 7300 - BLACKSMITH'S HAMMER
Lengths: 12" to 24" - For 1 1/2 to 6 lb. Hammers

NO. 7400 - BLACKSMITH'S HAMMER
Lengths: 12" to 24" - For 2 to 4 lb. Hammers

NO. 7700 - DRILL HAMMER
Lengths: 10" to 14" - For 2 to 4 lb. Hammers

NO. 8900 - CALIFORNIA FRAMER
Lengths: 16" to 20"

Lengths: 15" to 19"

NO. 1099 - FROE HANDLE
Lengths: 22"

FOR AID IN SELECTING THE PROPER SIZE HAMMER HANDLE, REFER TO THE HANDLE SELECTION CHART ON PAGES 8 AND 9.

HANDLE FINISHES AND GRADES

GENUINE AMERICAN HICKORY REPLACEMENT HANDLES

GRADES & FINISHES

Our striking tool handles are manufactured from genuine American hickory grown in the Tennessee Valley region. Hickory is a natural shock absorber along with excellent fiber strength for tool handles.

The color of the wood does not affect the strength or quality of the hickory. The U.S. Forest Products Lab has found no difference in white or red hickory's strength. Therefore, the best hickory handles may be red, white or a mix.

Since hickory is a natural product, traditionally, handles have fallen into different grades according to density, freedom from defects, color and grain. The three basic grades are Grade A, B and C along with subgroups:

A Grade is a top quality prime handles and can be red or white and meet all government specifications for industry, commercial and other professional applications.

B grade is excellent for contractors, ranchers and other professional tradesman along with homeowners who want a top quality handle.

C grade is a great value for many applications and occasional use.

The finishes applied to the handles may be a...

- Tumble Wax
- Flamed and Lacquered
- Cherry Lacquer
- Clear Lacquer
- White Ivory Lacquer
- Yellow Safety Grip (extra charge)

Packing: All handles come 12 to a box with steel and wood wedges included where needed.

Below you will find the 7 different grades of handles along with the type of finish applied.

Name	Grade	EDP Brand No.	Description and Finish
<i>Victor</i>	AAW	1	Choicest selection of heavyweight, all-white hickory with a wax finish .
<i>Regent</i>	AW	2	Excellent heavyweight, all-white hickory permitting slight color variations with a wax finish or white ivory finish .
<i>Duke</i>	BW	4	Choice good weight, all-white with slight blemishes and wax finish .
<i>Toolmaster</i>	AR	5	Finest selection of heavyweight white and red hickory with a clear lacquer finish .
<i>Flame Seasoned</i>	BR	8	Better quality with minor defects and flame-treated and lacquer finish .
<i>Vulcan</i>	BR	9	Good weight white and red hickory with a slight sound defects and a wax finish .
<i>Forrester</i>	C	11	Fair weight hickory with a wax finish or cherry finish .

CUSTOMER SERVICE 1-800-251-9106

	Tennessee Hickory handles can be ordered in several different finishes with the three most popular being tumbled wax, clear lacquer and flame tempered and laquered. Additional finishes include cherry lacquer, ivory and yellow safety grip.
Tumble Wax	
Clear Lacquer	
Flame Tempered/Lacquer	
Ivory Lacquer	
Cherry Lacquer	
Yellow Safety Grip	

Displays: Assortment of popular short and long hickory handles are available with or without display rack. Please contact a sales representative or our plant. Ash handle assortment is also available.

EDP NUMBERING SYSTEM

for

Positive Identification - Order Entering - Inventory Control - Cataloging
UPC Coding - Available on Request (only certain brands)

Tennessee Hickory Handles presents an EDP numbering system which positively identifies the Type, Style, Length and Brand of handle, plus other information, in a simplified form. This system will eliminate errors, misinterpretations and is a timesaver. Its use is suggested for Purchase Orders, Catalog Numbers and Inventory Control. The system is compatible with Electronic Data Processing systems. The basic numbers are in the Price List, and the complete number for every handle will appear in the "Item No." column on each invoice.

HOW IT WORKS

The entire "Handle Number" is composed of four digits. Hickory Handles have been separated into ten groups as to the TYPE of handle; e.g., Axe, Pick, Sledge, Hammer and Hatchet, etc. These groups are numbered from 1,000 to 10,000. The "Thousands" number signifies the TYPE OF HANDLE.

Each type of handle includes several different STYLES of handles; e.g., Bent Single Bit Axe, Nail Hammer, Machinist's Hammer, etc. The STYLE OF HANDLE is designated by the "Hundreds" number. By combining the correct "thousands" number with the proper "hundreds" number, the type and style of handle is identified.

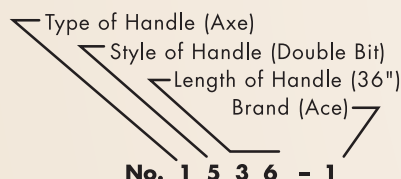

The LENGTH of the handle is shown by the "Tens" number. The length of the handle in inches composes the last two digits of the entire handle number.

BRAND Identification: The entire handle number is followed by a hyphen (or a space) and the BRAND NUMBER. The Brand Number is found in the price list or on Page 2 of this catalog.

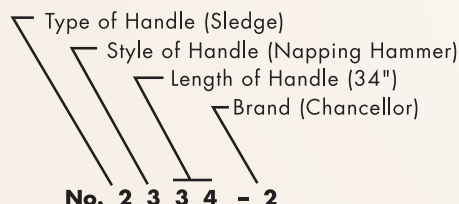

An additional hyphen (or space) and a number following the brand number denotes the weight of tool with which the handle is used. This is required only on certain handles where the weight of tool is specified.

SUFFIXES: "X" denotes Octagon Grip. "S" denotes Small Eye.

STANDARD SHAPES OF TOOL EYES

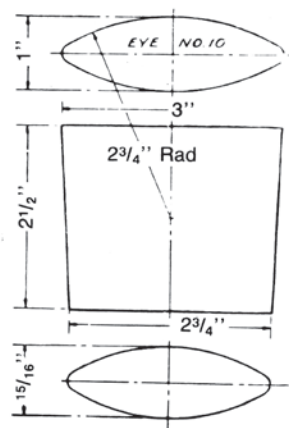

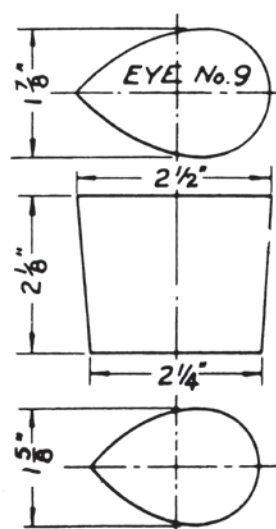

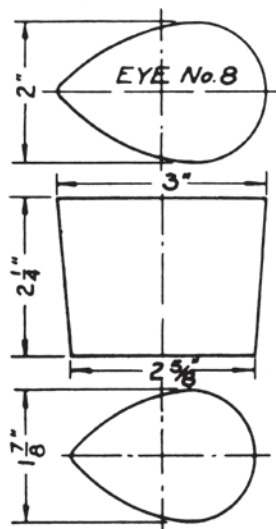

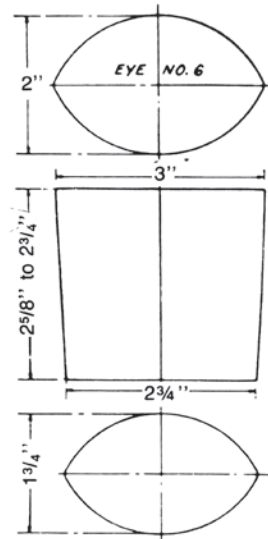

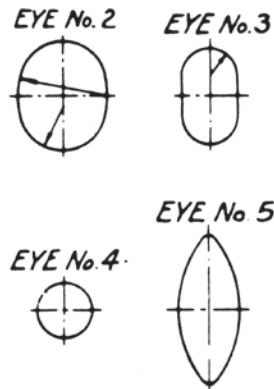

The Shapes of the Eyes of the different tools listed and described in the preceding pages are designated by numbers corresponding to those of the U.S. Department of Commerce. Forged Tools Simplified Practice Recommendation.

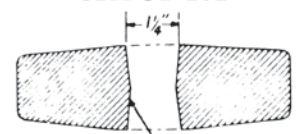

Eye formula:

- A — Size of Stock
- B — 40 percent of A
- C — 125 percent of B (approximate)
- D — $\frac{5}{16}$ of B
- E — To suit dimensions B, C, and D

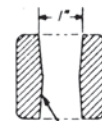

NOTE: Manufacturers have a tolerance limit of $\frac{1}{16}$ inch above and $\frac{1}{32}$ inch under all eyes to allow for punch wear.

PACKING & LABELING: REGULAR PACKAGES - All handles 20" to 42" long are regularly packed in strong corrugated board cartons containing one dozen each as requested. Handles 10" to 18" are packed in cartons containing one dozen each. **LABELING** - Our own labels or brands are regularly applied to all handles. **SPECIAL BRANDS** - Your own labels will applied if furnished with order. We can, on request, stamp each handle with your firm name on any brand selected. There is a \$30.00 charge for this service when orders call for ten dozen or more. Only one line of type can be used and length is limited to a maximum of 25 symbols and/or spaces. If handles are wanted without label or stamp of any kind, be sure to specify on order.

IMPORTANT NOTE: Hammer heads produced by different tool manufacturers may vary slightly in the size and shape of the eye. The Tennessee Hickory handles recommended above are designed for use with the majority of tools, without excessive fitting by the user. On request from quantity users, handles can be supplied sized especially for any particular make of hammer specified.

PAYMENT TERMS: Our terms are 1% - 10 days - net 30. A service charge will be billed on overdue accounts at the rate of 1% per month. PayPal, checks accepted.

FREIGHT ALLOWANCES: All prices are F.O.B. factory with full freight allowed on shipments of 750 lbs. or \$1,000.00 or more. Less than 750 lbs. or \$1,000.00 no allowance - freight will be shipped collect. U.P.S. charges will be shown on invoice. West of Rockies/New England 1,000 lbs. or \$1,250.00.

RETURNS: Merchandise may not be returned without our authorization. If authorized, returns will be subject to incoming and outgoing freight charges, a 20% restocking charge, and any charges necessary to return the item to saleable condition.

MINIMUM ORDER: \$100.00

TENNESSEE Hickory Handles

Tennessee Hickory Handles regularly manufactures a complete line of lawn and garden tool replacement handles. Shown here are a few of the popular styles.

MATERIAL: Our handles are manufactured exclusively from select White Ash and other domestic hardwoods.

GRADE: Flame-Seasoned from prime grade ash selected for weight and straight grain, flame tempered with clear lacquer finish.

Vulcan from No. 1 grade ash selected for grain with wax finish.

BRANDS: Unless otherwise ordered, our own catalog numbers and Fleishmann brand will be applied. Private labeling, to your specifications, is available.

STANDARD PACKING: Handles are packed in bundles of six each.

HANDLES MANUFACTURED TO YOUR SPECIFICATIONS: We will manufacture handles to your specification. If you do not find the handle you require in this catalog, we will be pleased to quote on your needs upon receipt of a sample, sketch or blueprint.

PAYMENT TERMS: Our terms are 1% - 10 days - net 30. A service charge will be billed on overdue accounts at the rate of 1% per month.

FREIGHT ALLOWANCES: All prices are F.O.B. factory with full freight allowed on shipments of 750 lbs. or \$1,000.00 or more.
