

***magnet*PAL.com**

The most useful magnet ever made.

1 800 827 6143

MagnetPAL, less than 1" x ½" contains powerful rare earth elements injected molded in ABS Plastic. MagnetPAL will not rust or break. It is proudly made in the USA.

Why MagnetPAL unique?

- Rare earth elements are combined to create the strongest **permanent magnets**.
- Rare earth elements are brittle and do not hold up to everyday applications.
- We are the **only company** that has determined how to **injection mold ABS plastic** around rare earth elements to give them the required strength for everyday applications.
- **Patented Product** will not rust or break.

Attach to hand tools to hold bits, bolts, and screws.

Never lose your bits.

Top Customer Reviews

★★★★★ A Morning Saver!

By [PreK Rocks!](#) on October 12, 2018

Style Name: 1 Pack | Color: Orange | [Verified Purchase](#)

Beyond satisfied. I am "always" losing my keys - even my spare one! This magnet has been a lifesaver - I've attached the spare set to it, and then put the magnet on the top door hinge. Voila - always there when an emergency strikes!

Even better, as soon as I come in the door I put my regular keys up there as well. The magnet is so strong that it holds the key loop, and it's easy to take it down each morning w/o removing the magnet from the door.

This saves me so much aggravation in the morning!

Bought two for my husband to stick stuff in the garage. These magnets can literally attach to any metal objects or surfaces. We used it to hang the tools like shovel, scissors, and stuff. It's really strong, that you might be careful when using two at the same time (coz the magnetic power is really strong!) Would recommend!

★★★★★ Strong and cool

This is really cool. I want it for my keychain even though I have no real practical use!

Number 1 Cyber Monday Amazon

The screenshot shows the Amazon.com website during a Cyber Monday sale. The URL in the browser is https://www.amazon.com/go/bestsellers/industrial/1265130011/ref=pd_pg_bsr_fg_1_4_text. The search bar contains the text "Industrial & Scientific". A red box highlights the "CYBER MONDAY" banner. The page features a navigation bar with "Departments" and "Your Amazon.com". The main content area is titled "Amazon Best Sellers" and "Best Sellers in Rare Earth Magnets". It displays three products: 1. MagnetPal Heavy-Duty Neodymium Anti-Rust... (orange hook, \$12.99), 2. CMS Magnetics NS2 1" Cube Neodymium... (cube magnet, \$6.78), and 3. MagnetPal Heavy-Duty Neodymium Anti-Rust... (black hook, \$9.85). A sidebar on the left shows a "Magimous Magnet hook" product. A right sidebar shows "More to Explore in Rare Earth Magnets" with "Hot New Releases" and "Most Wanted For" sections.
