

TOOL ORGANIZATION AND STORAGE

2021 CATALOG

QualityCraft™

WHO WE ARE

Since 1984, Quality Craft has serviced the needs of the consumer and retail partners, delivering quality products at competitive prices. With more than 3 decades of experience in over 100 different product categories and in fostering long term relationships with a wide variety of manufacturing partners, Quality Craft has developed a functional expertise to be agile, responding to the market trends, and finding innovative product solutions, effective manufacturing and certifications. Today, Quality Craft's product development is focused on three key categories, which is supported through its three product brands:

Home storage and organization

Outdoor living

Surfaces

Quality Craft prides itself on being a company that has the ability to respond quickly and resourcefully to the ever-changing consumer needs and expectations. In order to meet the fast paced demand of our retail and on-line partners, Quality Craft opened a U.S. Support Center in Romeoville, IL in October 2019. This new facility provides improved operational efficiencies, and is a global hub for product development and marketing efforts.

The collective strength of Quality Craft's product and market knowledge, combined with our extensive global manufacturing network, provides us with a base to deliver the right products at the right price at the right time.

TRIANGLE® SHOPBOXES™ AND TOOLBOXES

The iconic Montezuma® Triangle® Toolbox was born on the backcountry roads close to Montezuma, Kansas. Driving over dirt and gravel roads or through fields can make even the best work vehicle bounce around, causing tools and supplies stored in the back to shift, resulting in damage and disorganization. The patented design of the Montezuma Triangle Toolbox will keep your tools in order, even when driving down the roughest roads or fields.

The new Montezuma® Triangle Shopbox™ is designed specifically for indoor shops and garages. Its innovative interior design provides more storage possibilities for power tools, hand tools, sockets and other supplies. View your tools and supplies at a glance and stay organized with a Montezuma® Triangle Shopbox.

Both the original Triangle and the new Shopbox provide a solid organization solution with the trademarked lid design. When closed, the lid locks tools in place, creating protection, security and organization, even when the box is moved.

Put it to the test and rest assured your tools will stay exactly where you want them!

FEATURES AND BENEFITS

- ▶ Multi-tier design allows you to see tools at a glance
- ▶ Heavy-duty steel tines help hold sockets and wrenches in place
- ▶ Durable, reliable and long-lasting performance
- ▶ Lid design locks tools in place when closed
- ▶ Designed to carry SAE and Metric tools
- ▶ Lock and latching system secures tools from unauthorized use

FEATURES ON THE TRIANGLE TOOLBOX (NOT ON THE TRIANGLE SHOPBOX)

- ▶ 16-gauge steel or heavy duty aluminum construction holds up even under off-road conditions
- ▶ Weather resistant seal on lid protects tools against dust and moisture
- ▶ Durable UV resistant powder coat paint finish is built for outdoor use (not on aluminum toolboxes)

The Triangle Shopbox is not for outdoor use. Triangle® is a registered trademark in the United States and New Zealand. The sloped-front toolbox shape is registered in the U.S. Patent and Trademark Office (U.S. Registration No. 3,930,484) and is a federally registered trademark of Quality Craft Industries Inc.

HANDHELD SHOPBOX

SB150B

	IMPERIAL	METRIC
Width	15-3/8"	39.1 cm

Staging tray is perfect for keeping tools within reach.

Built-in easel holds a tablet or other electronic device.

Pockets provide space for parts, tools, keys and other small items.

Drawer with ball bearing slides and Raise and Release™ drawer latching system.

Bottom tray holds larger equipment and supplies.

Rugged casters provide easy mobility, while toe locks keep your cart in place.

Made from durable, long-lasting steel.

TOOL CHESTS AND CABINETS

Montezuma® Tool Chests and Cabinets are 24" deep, which provides professionals and experienced DIYers with more cubic space to securely store their tools and equipment. With several sizes to choose from, these chest and cabinets are perfect additions to any garage or work space. Heavy gauge steel construction ensures reliable, long-lasting product performance.

FEATURES AND BENEFITS

NEW DESIGN AND SECURITY 24" deep units provide you with 33% more cubic space than standard 18" deep tool storage

- ▶ Indented angle sides provide more structural rigidity, significantly improving overall strength and durability
- ▶ Chamfered corners eliminate the sharp corners in traditional toolboxes
- ▶ Power and USB outlets on both the chest and cabinet make charging quick and easy
- ▶ Grommets on chests allow electrical cords to pass through
- ▶ Security drawer in chest helps keep valuables out of unauthorized hands
- ▶ Our coded tubular locks provide additional protection

DRAWERS AND LIDS

- ▶ Full extension ball bearing drawer slides hold 150 lb, increasing capacity and providing a smooth pull action*
- ▶ Large drawers are equipped with dual slides for storage of heavier items
- ▶ Heavy duty Raise and Release™ drawer latching system keeps drawers tightly closed even when the cabinet is being moved
- ▶ Variety of drawer sizes allows you to organize tools to meet your needs
- ▶ Full width, extruded, heavy duty aluminum drawer pulls eliminate flexing and make it easy to open drawers
- ▶ Deluxe drawer liners protect drawers and tools from wear and tear
- ▶ Gas struts make it easy to open the chest lid and safely hold it open, allowing great visibility and easy access to tools

DURABILITY AND MOBILITY

- ▶ Durable powder coat paint finish
- ▶ Resin coated worksurface on the cabinet provides a durable worksurface (on select models)
- ▶ Rugged casters on cabinet provide easy mobility*
- ▶ Sturdy side handle makes moving the cabinet easier

* 72" x 30" units have 250 lb slides and spring loaded casters

GARAGE STORAGE SYSTEM

The Montezuma® Garage Storage System is 24" deep, with a patented folding design that makes it easy to transport and assemble. This system provides a complete storage solution for your garage, workshop or other workspace. With all steel construction, Montezuma storage units can stand up to daily use and won't deteriorate in a garage setting like most plastic and wood based systems.

FEATURES AND BENEFITS

- ▶ Frustration-free assembly – transport home in flat boxes, unfold, assemble and setup
- ▶ 24" deep units provide you with 33% more cubic space than standard 18" deep garage storage
- ▶ Raise and Release™ drawer latching system keeps drawers tightly closed*
- ▶ Full extension ball bearing drawer slides hold 100 lb*
- ▶ Tall cabinet is large enough to store a golf bag, as well as other sports equipment or long handled tools
- ▶ Magnetic latches and locks keep doors closed**
- ▶ Durable powder coat paint finish
- ▶ Leveling feet included on all base cabinets

* On 4-drawer base cabinet only

** Not on 1-door wall cabinet or 4-drawer base cabinet

- ▶ Light bars can be daisy chained together with their 6" (15.24 cm) cords
- ▶ Clips included for cord management
- ▶ Everything included for quick and easy installation

* Strips will not adhere to stainless steel surfaces.

JOBSITE AND UTILITY BOXES

Our Montezuma® jobsite boxes secure your tools, supplies and equipment in the back of your truck, at a worksite, baseball diamond or other location. These rugged boxes are made to stand up to outdoor and everyday use. They are constructed of plate steel with a reinforced lid and fully welded seams to provide maximum strength and help keep out the elements. Recessed, swing up steel handles and skid rails help move the box into place with a two person lift or fork lift.

Montezuma's utility boxes feature a unique snap fit design that allows them to be assembled in minutes. The all steel construction ensures strength, durability and protection. They are great for storing power tools and equipment, or locking up chemicals and other supplies you may want to keep out of children's hands.

FEATURES AND BENEFITS

JOBSITE BOXES

- ▶ Padlock system secures contents (single on 30", dual on 36", 45" and 48")
- ▶ Gas strut or mechanical lid support assists in lifting and holding lid open (not included on 30")
- ▶ Weather resistant design helps keep contents dry
- ▶ Recessed, swing-up handles on each end for easy carrying

UTILITY BOXES

- ▶ All steel construction with full length steel piano hinge and reinforced lid ensures strength, durability and protection
- ▶ Cylinder lock secures contents against unauthorized access
- ▶ Weather resistant seal around lid protects against dust and moisture
- ▶ Includes durable swing up steel side handles
- ▶ Feet keep the box off the ground
