The Pros Know

ERGONOMIC HANDLE

Made of highly-resilient Polypropylene with an over-molded Thermoplastic Elastomer soft grip and featuring two patented ribs around its neck allow for maximum transfer of torque and a slip-free grip when pushing or prying

PERFORMANCE

Each tool provides necessary leverage in close-quarters to position, retrieve, remove parts, or easily maneuver around obstacles that otherwise would be troublesome

PRODUCT USE

Ideal applications include pulling apart trim, tacks, and staples from panels; removing window crank retaining clips and door panels; taking out flush mounted fasteners
