Great product!! I have used the Quick Shot Magnet with 1/4,5/16 and 3/8 ammo with no issues. Well made and very convenient to use when clipped to a belt loop or attached to my day pack. 5 STARS!!!!

Handy . I used to hold them in my shooting hand 10 or 20 at a time but this is a better way to hold them on your finger or put it on paracord and hang it around your neck like a necklace. I bought 2 and will probably get a couple more 😊
